SUSTAINED INVESTIGATION IDEAS!

Look at your work up to this point. Choose your favorite pieces and try to see what common themes or interests you seem to naturally want to explore. Why are these pieces strong? Think about not only subject matter; but also, technical and compositional devices that you explored.

Your Sustained Investigation is **MORE** than a simple theme or idea. It is about **HOW** you develop that idea over time and how your works increase in **SOPHISTICATION**. (higher level thinking and problem solving.) It should show a journey; one of skill, improvement, point of view, and individual voice. As always, thoughtful composition and exceptional technique is expected. This is your chance to dig deeper than ever before; to discover and hone that spark that makes your art a purely unique and individual reflection of you. With that said, please avoid the “trite” or “overdone” ideas/themes. (Unless you can find a unique and meaningful way to express them that will knock the socks off your viewers!)

CAUTION: *there are many lists online of possible concentration ideas. These are not inherently bad to refer to for ideas, but use these as a starting point, not as a means to an end. Your concentration must be your own and you must have ownership of it to find success with it!*
