Create a minimum of a work of art based on your theme/interests. There is no limit for this project, however, be sure to have some research and process in your Art journal.

Challenge yourself above and beyond the summer assignment.

You may start ahead to choose your theme, research it and create artworks while you have time during the summer.

I strongly recommend you may complete the final Comparative Study based on comments from the teacher during summer. The final submission will be in September.

Use textbook, rubric and examples to guide your final draft of CS.
